Features

Full Lighting Coverage

The innovative asymmetric LED lighting coverage evenly illuminate every edge of the scanning area, decreasing the light which is directly reflected from the tabletop, not only making the scan documents clear and visible but also allowing users feel comfortable to see the documents in a low-light environment.

Multiple-Cropping Function

The DL8 can quickly and easily scan multiple name cards, receipts, parking tickets, etc., at once! This feature allows you to save both time and money since there is no need to scan each document individually.

Powerful OCR Recognition

The embedded Optical Character Recognition (OCR) function allows you to convert scanned images into searchable PDF and editable Word, Excel, and Text formats, it supports more than 130 different languages.

Unique Text to Speech (TTS)

Unique Text to Speech (TTS) Assistive Technology for a word by word read & listen to any document. This is a fantastic tool to assist and help people suffering from Dyslexia or for child language learning.

Distance Learning Ready

UVC/UAC compliant, DL8 allows you to demo physical objects to show live teachers or presenter activities to remote learners via the 3rd party video conferencing software.
